Frequently Asked Questions

What is the warranty on the battery that came with my vehicle? It says that it has a 42 month no charge warranty. (Example: ACDelco Professional PG Series)

The battery that comes with a GM vehicle or is replaced under warranty is covered by the limited warranty of three years or 36,000 miles (48 months/4 years or 50,000 miles, whichever comes first, for Cadillac and Buick) and should be taken back to the GM dealership. The ACDelco replacement battery warranty is for the consumer who purchased the battery; the battery should be returned to the place of purchase or any ACDelco battery retailer with the receipt.

Where can I find a warranty-covered replacement battery?

You can find a local ACDelco battery retailer through the ACDelco [Parts Retailer](#) or [Service Center](#) online, or call 1-800-ACDelco and one of our friendly representatives will help you locate a warranty center in your area.

How do I read the warranty date code on my battery?

The warranty date code is located on the top label of the battery. The first character is either a P or S. The next two digits determine the month, the third digit is year and the fourth digit indicates the manufacturing plant. For example, P 094N means the battery was made in September 2014.

ACDelco Warranty (All Batteries)

In the event you wish to make a claim under this warranty, you must return your dated bill of sale and your battery, with its warranty insert intact, to your ACDelco retailer. If your dated bill of sale is not available, the beginning date for this warranty will be based on the date code as it appears on the battery label.

ACDelco warrants new replacement ACDelco batteries from the date of purchase by the initial user for the time periods indicated in and Retail Adjustment (7A-30 or 7A-31) and the Fleet and Commercial Applications (7A-28 or 7A-29) Warranty Tables. ACDelco batteries offer a Standard Warranty (No Charge Period) with select part number also providing a Pro-Rata warranty with a cost per month.

Standard Warranty (No Charge Period)

Should an ACDelco battery prove defective based on the ACDelco test procedures published in the 7A-100 Battery Catalog during the Standard Warranty period, the initial user is entitled to a new ACDelco battery of comparable performance at no charge. If an ACDelco battery is replaced under warranty at no-charge to the customer, the newly replaced battery will receive the remainder of the original warranty. Consequently, in the event that the second battery fails, the date of sale of the original retail purchase is to be used as the beginning date when calculating months of service.

Pro-Rata Warranty (Cost Per Month)

Following the no-charge warranty period and continuing through the end of the total months of warranted service, some ACDelco batteries, depending on application and type of service, can be exchanged on a pro-rata cost basis for a new ACDelco battery. For batteries covered by pro-rata warranty, the adjustments will be based on the total months of service. The pro-rata charge will be based on the published suggested price schedule (7A-30 for Retail or 7A-28 for Fleet and Commercial) and cost by month tables for the type of user and battery at the time of adjustment. If an ACDelco battery is replaced under pro-rata at a cost to the customer, the replacement battery is covered by the new replacement battery warranty.
